Remote Controls for Audia® and Nexia®

Product Brief Description

The Volume 8, Select 8 and Volume/Select 8 Control Panels are wall mounted remote controls for Audio™ and Nexia™ Products. The control devices allow for a simple and intuitive interface for end-users, and can be installed and configured to fit the unique needs of a particular application. Any combination of Control Panels can be connected on a 5-wire daisy-chain, eliminating the need for local power sources. This connection also provides the serial communication to the Audia™ or Nexia™ system. Multiple remote control panels can be connected on one bus, over a large physical distance.

Features

- Single or dual gang construction
- Up to 1000' cable runs per control bus
- Programmable within Audia™ or Nexia™
- Labeling Software Templates
- Five Year Warranty

Benefits

- Fits standard US back boxes
- Long runs via daisy-chaining
- Simple integration and programming
- Easily create controller labels
- Reliable operation

Applications

- Room Combining
- Paging/Music
- A/V Conferencing
- Restaurant/Bar
